Meeting Minutes: One-Page Summary

Date: Sat, 31 Oct 2026, approx. 2:00 PM | **Attendees:** Vivek Patel, Bhavesh Patel, Vahid Bhai | **Agenda:** Monetise knowledge, network and technology through Home Agri and the medical business.

1. MEDICAL BUSINESS: ROUND SIZING (CCPS)

- Vivek to share the medical company's data room. Team then assesses the largest defensible round via CCPS. Bands to test: **₹5 Cr, ₹50 Cr, ₹100 Cr+**, bounded by eligibility and current product status in the market.
- **Coordinator:** Vahid Bhai. Parallel track: commercial understanding for professional management of the company.

2. IMMEDIATE TRADING (UNDER 90 DAYS)

- **Commodities:** soya bean, lentils, yellow peas, plus others with immediate supply (to be confirmed by Vivek).
- **Two models kept open:** (A) broking arrangement for commission; (B) invest and trade for margin.
- **Pre-requisites:** senior-level institutional connects, clarity of purchase, and no major policy change. Verify import status per commodity.
- **Deliverables:** one-page proposal per commodity for the topmost authority of target organisations; and an intelligence file on whom to connect with (Gujarat, Pan India, corporates, multinationals).
- Once inputs arrive, the team sits on the commercial understanding: revenue sharing, roles, ratio.

3. AGRI ECOSYSTEM (LONGER TERM)

- Starting point: a **commodity hedge fund**, after trust is won and a couple of transactions close. Then upstream, midstream and downstream deals using Home Agri information. Home Agri is first preference (Vahid's relationship); a similar opportunity with another player is kept as an alternative.
